

I am writing to urge the FCC to reject the NAB's petition 04-160. My job requires me to spend countless hours in my car and satellite radio has provided me with a diversity and quality in radio that is unprecedented. I have paid for this service and I believe that the NAB has no right to tell me what I can and can not listen to. Satellite radio has provided me with an invaluable service, so I respectfully urge the FCC to reject the NAB's petition 04-160 and support satellite radio's ability to provide me with the type of programming that demand and deserve. Thank You,
Joshua Seymour
